

CCI2i,
your partner for the **operation** and
development of airport and seaport infrastructures

About us

❖ An brand of the Chamber of Commerce and Industry of New Caledonia (CCI-NC), entirely dedicated to engineering and management of infrastructures.

❖ A local know-how based on the most demanding international standards for the development of custom solutions.

50 years of experience in the airport sector, in cooperation with leading partners.

❖ Professional experts continuously trained in their respective fields of expertise and intervention.

Our **know-how** at the service of the operation of **airport** and **seaport infrastructures**

OPERATION AND TRAINING MANAGEMENT

Custom solutions in order to improve the operation of your platform and to optimise traffic management.

- Realise, manage, maintain, operate, develop and promote infrastructures
- Satisfy customer demands (companies, ground handling agents, passengers...)
- Assure cross-sector relationships together with all the airport's partners
- Optimise means and resources

DEVELOPMENT

Our teams share their know-how through high-quality training courses.

- Airport firefighters
- Techniques to combat oil fires
- Handling of the means of protection assistance, evacuation and first aid
- Crisis management (contingency plan)
- Airport safety
- Airport security
- Vehicular traffic in manoeuvring and traffic areas
- Skill improvement in total immersion trainings

PROJECTS AND REFERENCES

The experts at your service realise studies and provide technical assistance in each of our sectors of competences to satisfy your needs

- Increase operational performance and profitability (operation, cost management, seeking new income)
- Assist in the domain of sustainable development and energy optimisation
- Develop, conceive, build and modernise new infrastructures
- Program and anticipate future needs (general plan of composition)

CCI Infrastructure and Engineering provides a solid field experience based on the expertise of island-based infrastructures' specificities. Our aim: to develop custom solutions that create value.

New Caledonia
